

Product Information Hako-Variette 350

Hako

Clean ahead

Hako-Variette 350: The compact start in grounds maintenance. Powerful range of accessories for various applications.

You want comfort.

The Hako-Variette 350 offers:

- A vibration-damped steering column with large dimensioned rubber buffers.
- No tools required for continuous height-adaptation of steering column to optimum working position.
- All operating element clearly arranged at the column within operator's reach.

You want power.

The Hako-Variette 350 offers:

- A powerful large-series Honda engine of 2.9 kW (4.0 HP).
- A robust mechanical travel drive.
- Excellent traction due to rigid connection of drive wheels.
- Attached units are driven by powerful p.t.o shaft.
- Compact construction in modular design.

You want efficiency.

The Hako-Variette 350 offers:

- A compact starter machine at a low price.
- A selected accessory range for easy cleaning and care of small surfaces.
- Extremely low service life costs due to industrial design of the components.

Convince yourself!

Performance and quality down to the very last detail:

Vibration-damped steering column. Continuous adjustment of column height without tools to allow optimal working position for the user.

Smooth running and powerful large series Honda engine of 2.9 HKW (4.0HP). Easy start with electronic ignition.

Quick and easy changing of the attached units by 2 screws. Equipment with robust p.t.o. shaft for efficient power transmission from gear to an implement such as e.g. the sweeper.

Due to the perfect wheel dimensioning and the large ground clearance passing stairs or other obstacles is very easy.

Technical Data Hako-Variette 350

Basic unit:	Complete unit consisting of engine, axle, steering column and linkage for implements	
Engine:	Honda GC 135, 2.9 kW (4.0 HP) 1-cylinder engine with load control	
Wheel drive:	One forward speed, engaged with claw clutch	
Unit drive:	Driven by p.t.o shaft	
Tyres:	4.00-4 (twin tyres optional) allowing easy passage over stairs or other obstacles together with a perfect ground clearance	
Weight:	Basic unit	37 kg
	with sweeper	64 kg; with snow shield: 67 kg; with mowing bar: 57 kg
Sweeper:	75 cm working width with central drive. Dirt hopper and splash protection optional Two swing positions	
Mowing bar:	Working widths of 71 or 91cm, 4.00-4 twin tyre equipment recommended	
Snow shield:	85 cm working width with rubber scraping strip, activation of swing function from the steering column. Additional weight 8.5 kg	

In the interest of technical development we reserve the right to alter equipment without prior notice
