

## Product Information Hako-Variette 500

# Hako

Clean ahead

### **Hako-Variette 500: Powerful, compact implement carrier for professional summer and winter service.**

#### **You want comfort.**

The Hako-Variette 500 offers:

- A vibration-damped guiding handle with large dimensioned rubber buffers
- Continuous height-adaptation of handlebar to optimum working position without tools
- Foldable handle for compact transport dimensions
- Ergonomic arrangement of all operating elements at the handle
- Quick coupling system with central pipe link for attachment of implements

#### **You want power.**

The Hako-Variette 500 offers:

- A powerful large-series HONDA engine of 4.0 kW (5.5 HP)
- A robust mechanical travel drive assembly featuring 2 speeds and reversible shifting
- Semi free-wheel axles for ease of steering at high traction
- Unit drive by cardan shaft

#### **You want efficiency.**

The Hako-Variette 500 offers:

- A compact and professional power pack at an attractive price
- A selected accessory range for professional care of all sites and surfaces
- Hand clutch lever for release of the travel drive assembly allows easy displacement without engine running
- Low service life costs due to industrial design of high-quality components

**Convincing price and performance!**

# Performance and quality down to the very last detail

Vibration-damped guide handle. Continuous adjustment of handle height to allow optimum working position. All control elements at the handle within reach.

Smooth running large series HONDA engine of 4.0HkW (5.5HP). Easy start with electronic ignition. Large 3.6-litres tank.

Quick coupling system by centralized pipe connection for easy changing of the attached units without tools. Implements driven by enclosed and robust cardan shaft.

Lateral adjustment of the snow shield from the handle. Well dimensioned AG tyres as standard, lawn tyres with snow chains optionally available.

## Technical Data Hako Variette 500

Basic unit:	Complete unit consisting of engine, gear, handle and wheels.
Engine:	Honda GX 160 4.0 kW (5.5 HP) 1-cylinder air-cooled engine with load control and electronic ignition.
Wheel drive:	2-speed with reversible shifting, manual clutch for separating travel drive assembly.
Unit drive:	Driven by cardan shaft.
Tyres:	serial 13 x 5.00 -6 AS, lawn tyres (optional) snow chains (optional).
Weight:	Basic unit: 54 kg with sweeper: 86 kg; with snow shield: 86 kg.
Sweeper:	100 cm working width with central drive, cylindrical broom with universal bristling, 30 cm diameter. Dirt hopper and splash protection optional.
Snow shield:	100 cm working width, height: 38 cm; activation of swing function from the handle, integrated additional weight of 11 kg; rubber and steel scraping strip (exchangeable).
In the interest of technical development we reserve the right to alter equipment (in terms of specification, design, colour and technology).
