

Hako
Clean ahead

Hako-Jonas 900 V/E

Dust-free sweeping –
whilst seated comfortably.

Industrial
Cleaning.

Hako-Jonas 900 V/E

Well thought out, down to the last detail.

The Hako Jonas 900 V/E convinces with the following advantages:

- Perfect sweeping result thanks to the new type, large size main broom and powerful suction blower.
- Extreme manoeuvrability as a result of direct steering, front wheel drive. A pleasure to drive, which is even fun in narrow aisles.
- For exhaust-free indoor use with electric drive and different battery systems.
- For outdoor use with hydrostatic drive and petrol engine with adjustable engine speed.

- Modern and ergonomically laid out work place. The self-explanatory, operator-friendly operation guarantees minimum training times.
- Adjustable driver's seat for fatigue-free operation, optimum view of the area to be cleaned.
- A convincing dirt disposal concept, which leaves nothing to be desired. ①-③
- Service-friendly and robust. Avoids sources of faults by concentrating on the most important things.

The dirt disposal concept "Take It Easy"

Via the central lever of the hopper lift ① the hopper can be checked and put in the hopper. The two 30 litre hoppers can be taken out with and comfortably by one person ②.

- Functional operating column: The central switching on/off combined with the main broom lift is carried out via the adjustment lever which is easy to operate ④
- The 3m² large flat filter package is integrated in the blower housing and is easily accessible. Long cleaning intervals are achieved via a powerful electric shaker system. The degree of separation amounts to > 99%. ⑤
- The newly designed, large main broom with wrap around protection and patented holder can be changed without the need for tools. ⑥
- A second side brush on the left hand side is available as an option.
- High level of operational safety: by simply taking one's foot off the drive pedal the Hako Jonas slows down automatically, even when negotiating slopes. ⑨

y”

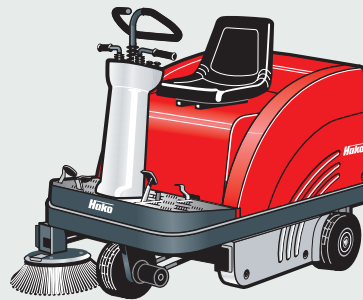

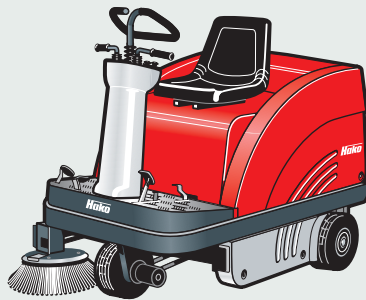

- The clearly laid out engine compartment is easily accessible for servicing and maintenance purposes via the seat console, which simply tilts backwards. ⑦
- The central sweeping level adjustment, which can be adjusted without tools, guarantees correct, even pressure of the suspended main broom. ⑧

ked to see how full it is at any time or bulky debris can be
out “getting your hands dirty” ⑨ and can be emptied easily

Hako-Jonas 900 V/E

Technical Data.

Working Data		900 V	900 E	Measurements and Weights		900 V	900 E
Drive		Petrol	Battery	Length with side brush	mm	1500	1500
Sweeping width				Width	mm	1000	1000
Without side brush	mm	700	700	Height, overall	mm	1330	1330
With 1 side brush	mm	950	950	Climbing ability	%	12	12
With 2 side brushes	mm	1200	1200	Weight, ready for operation	kg	350	
Sweeping speed up to	km/h	6,0	6,0	With drive batteries	kg		440
Drive speed up to	km/h	6,0	6,0				
Area Performance							
Maximum theoretical area performance according to VDMA 2441							
Without side brush	m ² /h	4200	4200				
With 1 side brush	m ² /h	5700	5700				
With 2 side brushes	m ² /h	7200	7200
