

Brush Vacuums, Wet and Dry Vacuums, Industrial Vacuums.

Contract
Cleaning

They collect any type of dirt, whether

Hako-Carpovac

- Brushing and vacuuming in one operation – that means deep, thorough and gentle cleaning of carpets. The Hako Carpovac brushes the pile through thoroughly and even quickly removes dirt, which clings to the fibres and ensures an optimum cleaning result, even on areas subject to heavy wear.
- With the telescopic suction pipe and the flexible suction hose it is possible to vacuum curtains, furnishings etc. without problem.
- Germ-reducing fibro filter (standard) or Hepa filter (option) for use in sensitive areas.

Brush change without tools at the side on the electro brush.

Access to the suction channel without tools for maintenance work.

Hako-Supervac D5

- Compact vacuum cleaner for commercial use in offices, hotels etc.
- As a result of the low noise development and Hepa filter (option) also perfectly suited for use in hospitals and noise-sensitive areas.
- Extremely manoeuvrable, sturdy and quiet as a result of specially coated wheels and low weight.
- The suction power is infinitely variable and regulated directly at the handle. Thus it is also possible to vacuum curtains without problem.
- Removable power cable can be changed without tools.

Double filtration as a result of cartridge filter and paper filter.

Space-saving storage thanks to the vertical parking position and holder for suction pipe.

er wet or dry – Hako Supervac.

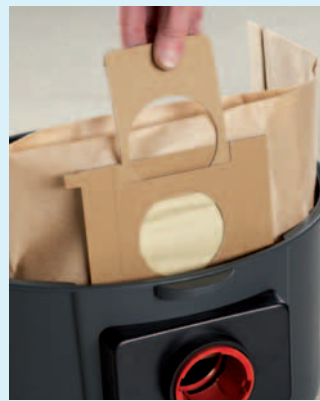

Hako-Supervac D 6 CL

- A top-of-the-range compact vacuum cleaner for commercial use in offices, hotels etc. Perfectly suited for use in hospitals and noise-sensitive areas as a result of the very low noise development, connectible Silent Mode and Hepa filter fitted as standard.
- The special ergo nozzle and the telescopic suction pipe ensure comfortable vacuuming of hard floors and carpets.
- Illuminated on/off switch also shows that the machine is ready for use even when the machine is switched off.
- Removable power cable can be changed without tools.

Triple filtration as a result of cartridge filter and paper filter as well as a special used air filter.

Special connection system between vacuum hose and housing enables the filter bag to be changed dust-free.

Hako-Supervac L1-15/30

- Very handy and operator-friendly wet and dry vacuum cleaner. Particularly sturdy and secure against tipping over as a result of the low and compact design and construction.
- Four wheel chassis with steering rollers for high degree of manoeuvrability. Hopper consists of impact-resistant synthetic material. The light weight aluminium suction pipe, covered in synthetic material, offers high impact resistance. The suction power is infinitely variable and regulated directly at the handle.
- By-pass cooled suction motor.
- Click system enables quick uncoupling of the suction hose from the housing.
- Anti-bacterial fibro filter used air cleaning.

Click system enables quick uncoupling of the suction hose from the housing.

Lightweight aluminium suction pipe, covered in synthetic material offers high impact resistance.

Hako-Supervac L 2-70

- Very robust and powerful wet and dry vacuum cleaner. Robust chassis with sturdy operating handle and large wheels to get over thresholds and steps.
- Hopper made of impact resistant synthetic material. Liquids can be emptied easily via the tipping device on the chassis.
- 2 by-pass cooled suction motors can be switched on individually.
- Click system enables quick uncoupling of the suction hose from the housing.
- Anti-bacterial fibro filter used air cleaning.

Large wheels to get over thresholds and steps without problem.

Emptying liquids via the handy tipping device.

Hako-Supervac L 3-70I

- Very robust, high performance wet and dry vacuum for industrial use.
- Hopper made of indestructible high-grade stainless steel and 3 by-pass cooled suction motors. guarantee a long machine life.
- With 3 x 1,200 watt the Hako Supervac L 3-70I fulfils all requirements – whether dry vacuuming of dusts, shavings and borings, milling remains containing oil or vacuuming liquids.
- Emptying liquids is easily possible via the tipping device on the chassis or the handy outlet hose.
- Anti-bacterial fibro filter used air cleaning.

Hopper made of high-grade stainless steel with click system for quick uncoupling of the suction hose.

Handy outlet hose to empty liquids.

We reserve the right to change shape, colour and design in the interests of continued technical development. The machines in the photographs may include special features.

Fibro Filter

Advantages: Combats viruses, bacteria, fungi and micro-parasites (such as mites) in the used air or in the filter respectively.

Does not contain volatile substances.

Does not emit any odours or other emissions.

The Process: Fibro filter is a special coating made of nano crystals, which gives the filter material the above mentioned properties/characteristics.

Hepa Filter (High Efficiency Particulate Airfilter)

Ulpa Filter (Ultra Low Penetration Airfilter)

Advantages: Filtering out of viruses, respirable dusts, mite eggs, pollen, smoke particles, asbestos, bacteria, diverse toxic dusts and aerosols from the air.

The Process: The filtration effect is measured in terms of particles from 0.1 to 0.3 microns (μm) grain size.

Hepa filter: > 99.95 % degree of separation (class H 13)

Ulpa filter: > 99.99995 % degree of separation (class U 15)

Everything speaks for Hako:

Cleanliness with safety.

Hako machines adhere to strict quality regulations/standards - "Quality made by Hako".

We also take care of what we sell - world-wide.

Sales, hire, leasing, rental.

With Hako, you can plan your capital expenditure on a completely individual basis. You can enter into short-term, medium-term or long-term agreements with regard to machine usage.

We are there for you day and night.

Round-the-clock service and express spare parts delivery - order today and have the parts tomorrow! So you can get on again as quickly as possible.

Close to you, wherever you are.

The unsurpassed close-knit Hako sales and service network means we are always close at hand - a bonus when you need us. Convince yourself.
