Cleaning Technology

Scrubmaster | Scrubber-driers

The walk-behind or ride-on scrubber-driers provide area outputs of up to 14,000 m²/h – offering comfortable operation, optimal visibility of the working environment and an ergonomic design.

Walk-behind scrubber-driers

Scrubmaster B5
Area output of up to 900 m²/h, 43 cm working width

Scrubmaster B8
Area output of up to 1,320 m²/h, 33 cm working width

Scrubmaster B12
Area output of up to 1,500 m²/h, 38 cm working width

Scrubmaster B25
Area output of up to 1,700 m²/h, 43 cm working width

More than clean
With Hako AntiBac®, the antibacterial tank coating, and Hako AquaControl for saving up to 50% water during operation.

Autonomous scrubber-drier

Scrubmaster B35
Area output of up to 2,070 m²/h, 46 cm working width

Scrubmaster B50
Area output of up to 2,475 m²/h, 55 cm working width

Scrubmaster B70/B90 CL
Area output of up to 4,200 m²/h, 60, 65, 70, 75 or 85 cm working width

Scrubmaster B75 i
Area output of up to 2,340 m²/h, 65 cm working width

Scrubmaster B20 i
Area output of up to 576 m²/h, 61 cm working width

Ride-on scrubber-driers

Scrubmaster B75 R
Area output of up to 3,500 m²/h, 55 or 65 cm working width

Scrubmaster B120 R
Area output of up to 5,800 m²/h, 70, 75, 85 or 90 cm working width

Scrubmaster B175 R
Area output of up to 7,560 m²/h, 85, 90 or 108 cm working width

Scrubmaster B260 R
Area output of up to 8,600 m²/h, 108 or 123 cm working width

AGR quality label
Hako has been the first manufacturer of ride-on scrubber-driers to be awarded the AGR quality label for ergonomic and back-friendly working.

Scrubmaster B400 RH

Scrubmaster B400 RM

Scrubmaster B400 R

Scrubber-driers and vacuum sweeper/scrubber-drier combi machines: area outputs of up to 14,000 m²/h, 123 and 155 cm working width

Sweepmaster | Sweepers and vacuum sweepers

Sweepmasters are the ideal choice for thorough sweeping and vacuuming of workshops, halls, car parks or outdoor areas. Whether as walk-behind or ride-on machines, they impress with their cost-effectiveness, user-friendliness and lots of great ideas implemented in every detail.

Walk-behind sweepers and vacuum sweepers

Sweepmaster M600
Area output of up to 2,300 m²/h, 67 cm working width

Sweepmaster B500
Area output of up to 2,400 m²/h, 60 cm working width

Sweepmaster 650
Area output of up to 3,525 m²/h, 70.5 cm working width

Sweepmaster 800
Area output of up to 4,350 m²/h, 87 cm working width

Hako Dust Stop
Hako Dust Stop reduces dust and fine dust generation during dry sweeping by up to 90% compared to a conventional side broom.

Ride-on vacuum sweepers

Sweepmaster B800 R
Area output of up to 6,600 m²/h, 89 or 110 cm working width

Sweepmaster 900 R
Area output of up to 7,200 m²/h, 95 or 120 cm working width

Sweepmaster 980 R/RH
Area output of up to 7,200 m²/h, 95 or 120 cm working width

Sweepmaster 1200 RH
Area output of up to 13,200 m²/h, 116 or 147 cm working width

Sweepmaster 1500 RH
Area output of up to 14,580 m²/h, 127 or 162 cm working width

Waterjet Technology

Oertzen | Cold and hot water high-pressure cleaners

Hako Waterjet Technology meets the diverse requirements of various industries in an economical, environmentally friendly and highly precise manner. With an extensive range of cold and hot water high-pressure cleaners equipped with combustion engines or electric motors, for mobile or stationary use.

Weco | Waterjet systems with additional benefits

One device, many applications: powerful waterjet systems with high-pressure cleaning, weed removal and irrigation functions as trailer-based units or for transport on an implement carrier.

Municipal Technology

Citymaster | Articulated or all-wheel-steered sweepers

Outdoor cleaning in cities or municipalities involves much more than just sweeping streets, maintaining green areas and providing winter service. Regardless of the season, application or surface, whether conditions are constantly changing or there are regional peculiarities, the Citymaster series masters all challenges with just one machine and minimal manpower.

All-electric Citymaster 1650ZE

Articulated sweeper with additional benefits in the 3.5-t class with 50 kW power output

Citymaster 650

Articulated sweeper with additional benefits in the 2-t class with 25.2 kW power output

Citymaster 1650

Articulated sweeper with additional benefits in the 3.5-t class with 55 kW power output

Citymaster 2250

Articulated sweeper with additional benefits in the 6-t class with 80 kW power output

Multicar | Multifunctional load and implement carriers

Multicars are genuine all-rounders: maintenance, upkeep and repair, cleaning, assembly, dismantling or disposal – these tasks require many skills, but only one vehicle. The Multicar is a powerful, multifunctional load and implement carrier that reduces the burden on both your staff and budget.

Multicar M29

Narrow-gauge load and implement carrier in the 6-t class with 80 kW power output

Multicar M31

Load and implement carrier in the 6-t class with 110 kW power output

Multicar M41

Load and implement carrier in the 7.5-t class with 129 kW power output
