

Hako

Scrubmaster B25

More cleaning quality for the small floor surfaces

Walk-behind scrubber-drier for cleaning small areas

Ease of use: The clearly arranged control panel with intuitive operating elements is particularly user-friendly.

Hako-AntiBac®

Better hygiene thanks to the anti-bacterial tank coating.

Hako-AquaControl

Water supply tailored to requirements thanks to the brush system with water-retention mechanism and automatic water shut-off when the machine is at a standstill.

Thanks to the foldable operating handle, the Scrubmaster B25 can be folded into a compact shape for transport in the boot.

Practical is the optional storage box for cleaning tools or other utensils as well as the optional mop holder with mop.

The basis for cleanliness

High performance and ease of use in a compact design

Thanks to a working width of only 43 cm, the Scrubmaster B25 can clean floors quickly, efficiently and thoroughly with a disc brush or pad. Many well-thought-out details support the user in his daily work.

For example, the ergonomically shaped, infinitely height-adjustable handlebar for back-friendly working, the good accessibility of all components facilitating daily maintenance or the cover of the solution tank filler neck, which acts as a dosing aid for cleaning chemicals.

Highlights:

- Tool-free, automatic brush ejection and pick-up system for daily maintenance
- Power-saving: effortlessly easy to operate with Powerflow drive unit
- Adapted: can also be used with Silent mode in noise-sensitive areas and with the antibacterial tank coating Hako-AntiBac® for increased hygiene requirements
- Safety system preventing unwanted water ingress into the suction turbine
- Large fresh water filler neck for fast-fill systems, bucket filling or filling with water thief

Technical data Scrubmaster B25 TB 430	
Working width	43 cm
Squeegee width	60 cm
Theoretical area output	1,700 m²/h
Working speed	4 km/h
Cleaning system	Disc brush
Solution tank/recovery tank	25 l
Nominal voltage	24 V
Total output	0.77 kW
Battery capacity	45 Ah GfV 41 Ah Li-ion
Length with squeegee	98-120 cm
Width without/with squeegee	52/61 cm
Total height	84-110 cm
Wet weight with battery (GfV/Li-ion)	93/75 kg

Hako

Quality of life for all through cleanliness and safety

For around 80 years, Hako has been providing innovative machines and services in the Cleaning and Municipal Technology sectors. The company is one of the leading manufacturers of machines for industrial, building and outdoor cleaning, as well as grounds maintenance and winter services. New solutions in the fields of autonomy, electromobility and digitalisation complement the portfolio. Hako stands for high product quality and reliable service. Sustainability requirements are addressed through continuous product and technology development.

We are also active in the Municipal Technology sector

Our flexible, manoeuvrable sweepers and compact, multifunctional implement carriers and municipal vehicles ensure clean and safe public spaces all year round – supported by efficient weed control equipment to maintain a well-kept urban environment.
