

# Hako Carpofit

## Carpet cleaner

### Product description

Carpet extraction cleaner.

### Properties

pH neutral product for cleaning of all soft floor coverings and upholstery fabrics.

### Usage

Hako Carpofit is a low foam carpet cleaner, suitable for use on any type of carpet or upholstery fabric. Hako Carpofit removes easily fat and waterbased dirt. Suitable for any type of carpet extraction machine and padmethode, also suitable as prespray agent and spotremover.

### Dilution

**Spray extraction: 10 - 30 ml per litre water (1 - 3% / 1:100 - 1:35)**  
**Padcleaning: 30 - 50 ml per litre water (3 - 5% / 1:35 - 1:20)**  
**Prespray/spotremover: 50 - 100 ml per litre water (5 - 10% / 1:20 - 1:10) Depending on the amount of dirt.**

### Instructions

Add the right amount product to clean, cold or handwarm water. Spray extraction: fill the clean-water tank with water and add the product, distribute Hako Defoam over the walls of the waste tank of the machine, spray-extract the carpet or upholstery fabrics and suck the cleaned surface afterwards. Padcleaning: fill a spraybottle with water and add the product. Spray the surface with the cleaningsolution and remove dirt with a damp bonnet-pad. Prespray/spotremoving: fill a spraybottle with water and add the product, spray the traffic lane or spot with the cleaningsolution. Let the solution soak several minutes and remove dirt with a carpet extraction machine or a white absorbing (terry) towel.
