

Hako Cityclean-O

Street cleaning

Product description

Oil remover for use on roads, cycle paths and footpaths.

Properties

Highly alkaline street cleaner for cleaning of all sorts of hard, waterresistant street surfaces / paving which have been contaminated with oil, diesel or similar fluids. Especially developed for use with the Hako-Citymaster. Hako Cityclean-O has been tested in combination with the Hako-Citymaster according to the DWA-M 715 test

Usage

Hako Cityclean-O can be used for the cleaning of roads, cycle paths and footpaths which have been contaminated with oil, diesel or similar fluids.

Dilution

10 - 50 ml per 1 litre water (1 - 5% / 1:100 - 1:20)
Depending on the amount of dirt.

Instructions

Trough the integrated dispensing system the product can be added in the right dosage to the cleaningwater. Then scrub with brushes and vacuum. Used dilution may be discharged into public drains without posing a danger to the environment.

Note: product is corrosive, use safety equipment!
