

Hako Cleanol-K

Floor cleaning

Product description

Strong cleaner for porous floors.

Properties

Low foaming, slightly alkaline, does not contain tensides so will easy penetrate in pore.

Suitable for use on all microporous surfaces.

Damages polymer film on floors.

Is permitted for use within the HACCP work programme.

Usage

Hako Cleanol-K is suitable for the use on any type of waterproof microporous surfaces such as marble, marble composite, ceramic tiles etc.

Dilution

6,5 - 25 ml per 1 litre water (0,6 - 2,5% / 1:150 - 1:40)

Depending on the amount of dirt.

Instructions

Add, depending on the amount of dirt and the type of floor, the right amount product to clean, cold water. Clean the floor manually or with a scrubber-drier. With heavy pollution, let the product soak for several minutes. A microfiber pad can be used, but it is preferred to remove the cleaningsolution including the dirt with a wetvacuum cleaner.
