

Hako Polyclean

Floor cleaning

Product description

Maintenance cleaner for the daily cleaning.

Properties

Low foaming, almost neutral. Suitable for use in scrubber-driers, spray cleaning, contains no polymers and restores the natural shine of the floor. Suitable for use on all waterproof hard floor coverings. Is permitted for use within the HACCP programme.

Usage

Hako Polyclean is suitable for use on any type of hard floor covering, but ideal for the daily use on floors with a silky gloss such as linoleum (with or without a protective layer), PVC en natural stone. Hako Polyclean makes the floor shine and does not effect acrylic polymer coats. Suitable for use as spray cleaner.

Dilution

5 - 10 ml per 1 litre water (0,5 - 1% / 1:200 - 1:100)
Depending on the amount of dirt. Do not dilute if used as spray

Instructions

Add, depending on the amount of dirt and the type of floor, the right amount product to clean, cold water. Clean the floor manually or with a scrubber-drier. With heavy pollution, let the product soak for several minutes. When used as a spraycleaner, spray a bit of undiluted product on the floor and rub with a red pad and (ultra) high speed machine till the desired luster is achieved.
